

5

In a Row Kindergarten Core Sight Word Phrases

The importance of phrase practice:

50 to 75% of all words in text materials are common words that are repeated. Because these words are used to hold thoughts together, these words must be recognized at a glance before a child can read with confidence. However, learning these sight words in isolation is not as effective as learning them in context. Reading phrases allows children to learn how to train their eyes to take in more than one word at a time.

To Make the game 5 in a Row Kindergarten Sight Word Phrases, you will need:

1. Game board
2. Dice
3. Colored pieces to mark spaces (two different colors-one for each player per board)
4. 2 players

How to Play:

1. Player rolls the die, that player will then read a phrases with the same number as the die.
2. If the phrase is read correctly, the player will place 1 colored piece on the word.
3. Player 2 will take a turn.
4. If the player cannot read the phrases correctly, they lose their turn.
5. The winner is the one to have 5 covered spaces in a row either, vertically, horizontally or diagonally.
