

SCHOOL DISTRICT OF RHINELANDER
PARENT REQUEST FOR PERMISSION OF CHANGE IN STUDENT
TRANSPORTATION TO/FROM A GRADE 7-12 SCHOOL-SPONSORED ACTIVITY

Dear Parent/Guardian:

Wisconsin schools have been advised by the WI Interscholastic Athletic Association (W.I.A.A.) not to permit students to participate in school-sponsored activities unless they are transported to and from the activity in vehicles provided by the school district. In situations where riding to or from a school-sponsored activity in a vehicle provided by the school district is not possible, a written request by the parent/guardian must be made in advance and must be approved by the activities director or school principal. Schools are otherwise considered liable and responsible for the safety and actions of all students involved in school-sponsored activities from the time they leave for the activity until the time they return from the activity. (NOTE: Activities begin when the district vehicle leaves a location to go to the activity and end when all students are returned to a location from the activity.)

Therefore, if it is necessary for your child(ren) to ride to or from a school-sponsored activity by any means other than vehicles provided by the School District of Rhinelander, **the form below must be completed and submitted to the 7-12 Activities Office no less than one (1) school day prior to the date of the activity.** (Requests may be denied if the form is not submitted prior to the date of the activity.) If the request is for more than one child, a separate form must be submitted.
