Class Rank
Class rank includes a Value-Added Formula. The Value Added Formula first calculates GPA on a straight, unweighted 4.0 scale adds .03 grade points to this average for each weighted class completed, regardless of the passing grade received.

Grading System:

Percentage Scale:
A= 4.000
A- = 3.668
B+ = 3.334
B= 3.000
B- = 2.667
C+ = 2.333
C= 2.000
C- = 1.667
D+ = 1.333
D= 1.000
D- = 0.667
F= 0

Calculate the total number of grade points earned and divide by the number of courses taken. Then, add .03 to the grade point average for every weighted class completed.
