

Let's get started!

Teachers

The best tools to support student learning – all in one place.

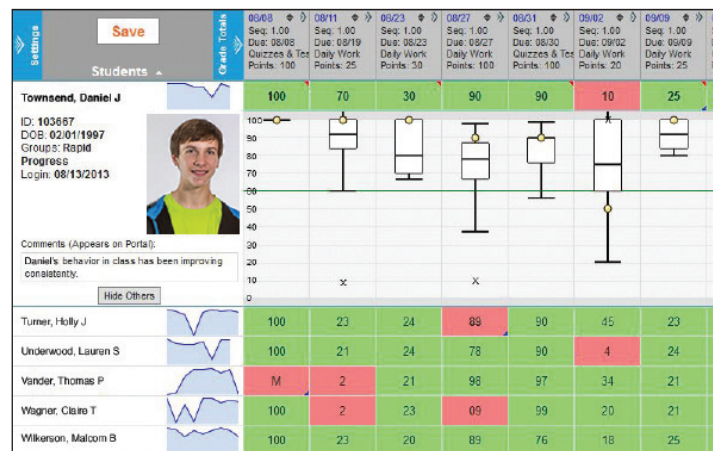

- Grade Book
- Attendance
- Reports
- Seating Charts
- Online Assessments
- Roster
- Planner
- Online Assignments
- Messenger

Here's a few things you'll see:

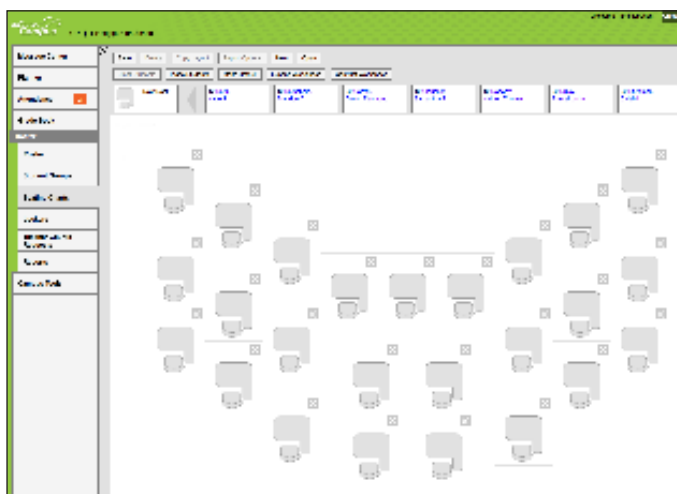

Grade Book

It's the most used tool by teachers and Campus makes it easy. Campus Grade Book has everything in one place so teachers don't have to click around to different screens. Whether it's posting grades, scoring multiple standards/grading tasks or posting report card comments, teachers use their time most efficiently with Campus Grade Book.

Visual Cues for Student Progress

Flexible Seating Charts

Seating Charts

Teachers use drag-and-drop to build seating charts that look like their classrooms. Got a band room with chairs in arcs? No problem! Want to design your seating chart once and reuse it for all the classes that meet in that room? Done.

Planner

Campus Planner provides two views of the most needed information: schedule and curriculum. Using the Curriculum view of the planner, teachers can see all their courses/sections on one page. Assignment dates can be changed using drag and drop. A handy "to do" list helps teachers stay organized.

Two Views: Schedule and Curriculum
