

Dear Parent/Guardian:

This is an exciting time as your child prepares to enter kindergarten in the fall. A complete immunization record must be presented to the school office when you register for the school year. Wisconsin Immunization Law requires your child to have the following immunizations:

- 4 DPT/DtaP/DT immunizations (** 1 dose must be received on or after their 4th birthday. (Note that for children that are on schedule, this will be their 5th dose.)
- 4 Polio immunizations
- 2 MMR immunizations
- 3 Hepatitis B immunizations
- 2 Varicella (chickenpox) immunizations OR the date of the disease

The Oneida County Health Department (715-369-6111) or your child's doctor may assist you with the review of your child's immunization record to determine if your child is in compliance with Wisconsin State Law.

Waivers are available for religious, health and personal conviction reasons. You may sign for this on the bottom of the immunization record available from your child's school. (See attachment). However, in the event of an outbreak of a vaccine preventable disease, students with waivers may be excluded from school until the outbreak subsides.

You are encouraged to have your child immunized well in advance of the school opening to avoid the late summer rush. Please contact your physician or the Oneida County Health Department if you have further questions.

As of 2003 state law requires school districts to encourage parents of kindergarten-age students to provide proof of eye examinations to the school: [118.135, Wis. Stats.] states that each school board must request that parents/guardians provide evidence that the student has had his/her eyes examined by a licensed optometrist or licensed physician.

Parents/guardians who choose to have their child's eyes examined should provide evidence of the eye examination or evaluation by December 31, following the student's enrollment in kindergarten. Attached is the state form that has been specifically designed for this purpose. Please return the completed form in the fall to your student's school. (This should not be mailed with your registration.)

Sincerely,

Kerri R. Schmidt RN, BSN, NCSN

INSTRUCTIONS TO PARENT: COMPLETE AND RETURN TO SCHOOL WITHIN **30 DAYS AFTER ADMISSION**. State law requires all public and private school students to present written evidence of immunization against certain diseases **within 30 school days of admission**. The current age/grade specific requirements are available from schools and local health departments. These requirements can be waived only if a properly signed health, religious or personal conviction waiver is filed with the school. The purpose of this form is to measure compliance with the law and will be used for that reason only. If you have questions regarding immunizations, or how to complete this form contact your child's school or local health department.
